

Project Profile

IKEA

Client	IKEA
Client Sector	Retail
Project Value	£15 - £35M
Services Provided	Project Management Employer's Agent Cost Consultant Construction Management Quantity Surveying Planning Supervision
Project Size	650,000 sq ft

Rider Levett Bucknall offered a single point of contact for construction works and fit-out/MHE.

This 650,000 sq ft high bay distribution centre with offices achieved through fast track programme was achieved via a Design & Build contract for the main works and construction management for the fit-out. As a result of the relationship forged on the project, Rider Levett Bucknall was commissioned and have now completed Ikea's next store project in Edinburgh.

Construction programme was achieved on time and within budget. 35 week construction and fit-out period for Ikea's first UK distribution centre.
